

WANT TO GO ON A FIELD TRIP? :

We are currently evaluating possible school campus' that qualify for our field trip. Once the committee has approved the selected schools and the School Board has been briefed an invitation will be sent out asking for community and school district staff volunteers. We plan on taking at least one school bus for one full, and I emphasis full, day. It is anticipated that the tour date will be on a Friday, leaving in the early morning and return late in the evening.

Those that volunteer to go on the field trip must be willing to continue an active involvement with the Facilities Planning Committee or the Community Action Group in making recommendations to the School Board. These recommendations will include new vs. renovation, what the general obligation bond will include, and when the bond should be put before the voters (May vs November).
